

Lecture Capture using techsmith Relay has changed.

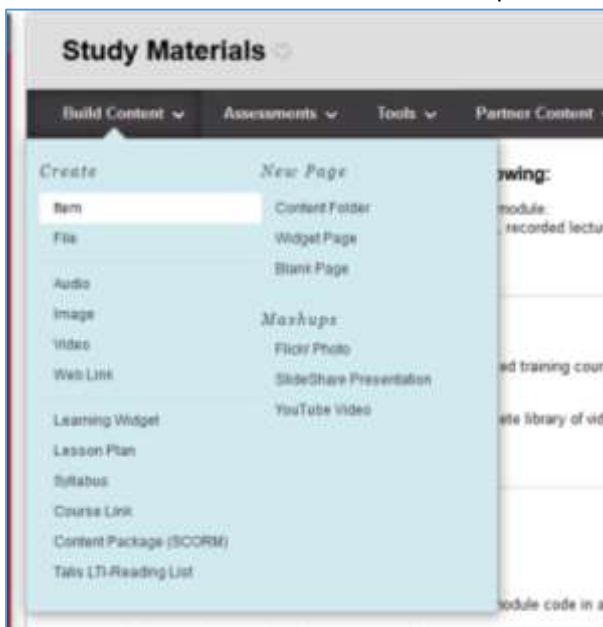

The recording process is the same but the location of your processed videos has changed to our media streaming service.

<https://mediastream.brighton.ac.uk>

The **changes affect how you share your videos with your students** because when the videos are sent to mediastream they are private to just you so you can no longer just share the URL in the email sent.

This is what you should now do:

1. Go to your module on studentcentral and to the study materials area
2. Click on the **Build Content>Create Item** option

3. Give the item a name and then in the text editor select Mashups>MEDIAL

Create Item
A content item is any type of file, text, image, or link that appears to users in a Content Area, Learning Widget, Lesson Plan, More Help

* Indicates a required field.

CONTENT INFORMATION

* Name

Colour of Name Black

Text

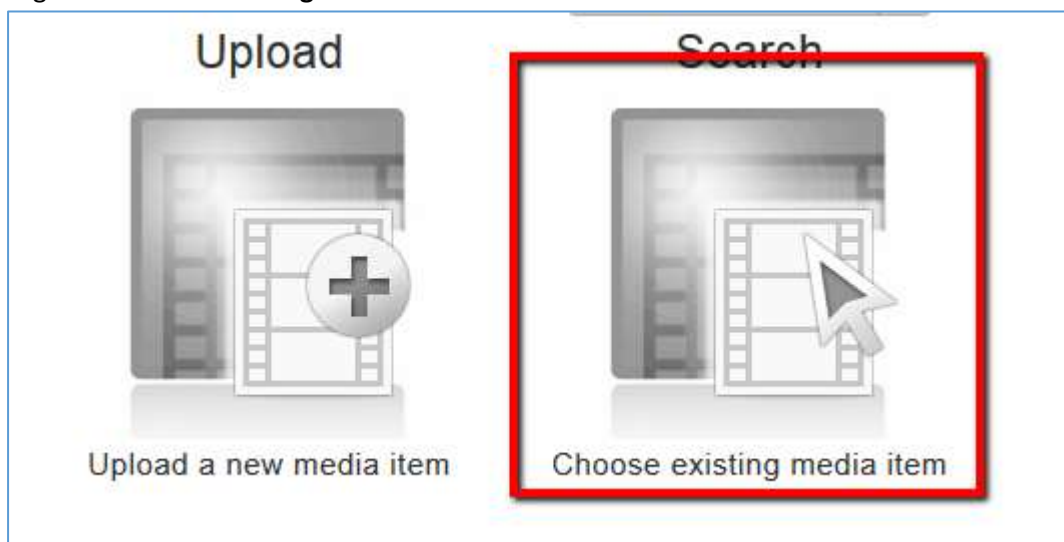

Paragraph Arial 3 (12pt)

Mashups

- SiteShare Presentation
- YouTube Video
- MEDIAL**
- Flash Photo

MEDIAL

4. Login and **choose existing media item**

5. You'll now see a list of your mediastream videos, click select under the video you want to share

* Indicates a required field.

Video

The image is a screenshot of a video player. The video content shows a dashboard with a sidebar on the left and a main content area. A red arrow points from a text box to a play button icon in the center of the video frame. The video title is "Using the Photo Registers on studentcentral". The duration of the video is 04:37.

Students can now click here to view the video
