

## Getting Started with Actionbound

Create an account by speaking to your LTA.

Login via [actionbound.com](http://actionbound.com)

## Creating a bound

The "Create new Bound" form is shown. It includes the following fields and options:

- Title:** A text input field containing "My Bound".
- URL:** A text input field containing "https://actionbound.com/bound/mybound".
- Play mode:** Two radio button options: "Single-player Bound" (selected) and "Multi-player Bound".
- Sequence of stages:** Two radio button options: "Fixed" (selected) and "Flexible".
- Buttons:** A green "Create Bound" button and a grey "Cancel" button.

A red box highlights the Title and URL fields with the text: "Enter a title and URL end (this is visible so make it meaningful!). Then choose whether it's single or Multi player and if the sequence is Fixed or a player can jump around the 'Bound'."

# Understanding the Bound interface

**My Bounds** > **University of Brighton - Moulsecoomb Campus**

**University of Brighton - Moulsecoomb Campus**

**Content**

**Settings**

**Results**

**Publish**

Your Bound is offline. It can not be played. Select the Button to put it online.

**Offline** (button)

**Test**

Test out your Bound before you put it online. The test Bound will contain the latest modifications.

**Test** (button)

**Share**

**Callouts:**

- Access to the bound can be given by sharing this URL
- Manage when the Bound is online
- Use this to test your bound before going 'Live'
- Access can also be given via the QR code

**Callouts:**

- Main Menu
- Click the + to add an item to your Bound
- Then choose from the list of items that appears

 Stage	<b>Stage:</b> Set the location and title of the start of your Bound, NOTE you can have multiple 'stages' for your Bound to create sections.
 Information	<b>Information:</b> Use information to give a context to the stages of your Bound or instructions.
 Quiz	<b>Quiz:</b> Create challenges and award points for your players.
 Mission	<b>Mission:</b> Give your players a mission to complete, this could be taking a photo, recording a video or sending back some text.
 Find spot	<b>Find Spot:</b> Get your player to find a GPS coordinate to win points. The points are scored automatically using GPS when the player reaches the set GPS location.
 Scan code	<b>Scan Code:</b> Generate a QR code, print it off and place it in a location for your players to find and scan. (use when GPS isn't an option, eg to take students up a building).
 Survey	<b>Survey:</b> Create a survey for your players to complete.
 Tournament	<b>Tournament:</b> Use this in Team player Bounds to set a 'tournament' for the team.
