Creating a bound

Click to create your 'Bound'

or click on existing 'Bound' to edit it

Enter a title and URL end (this is visible so make it meaningful!). Then choose whether it’s single or Multi player and if the sequence is Fixed or a player can jump around the 'Bound'.
Understanding the Bound interface

- Access to the bound can be given by sharing this URL.
- Manage when the Bound is online.
- Use this to test your bound before going ‘Live’.
- Access can also be given via the QR code.

Main Menu:
- Click the + to add an item to your Bound.
- Then choose from the list of items that appears.
Stage:
Set the location and title of the start of your Bound, NOTE you can have multiple ‘stages’ for your Bound to create sections.

Information:
Use information to give a context to the stages of your Bound or instructions.

Quiz:
Create challenges and award points for your players.

Mission:
Give your players a mission to complete, this could be taking a photo, recording a video or sending back some text.

Find Spot:
Get your player to find a GPS coordinate to win points. The points are scored automatically using GPS when the player reaches the set GPS location.

Scan Code:
Generate a QR code, print it off and place it in a location for your players to find and scan. (use when GPS isn’t an option, eg to take students up a building).

Survey:
Create a survey for your players to complete.

Tournament:
Use this in Team player Bounds to set a ‘tournament’ for the team.
Use setting to manage your Bound and add information about the Bound. As a minimum we recommend adding an image and Description.

Playing the Bound

Once you've completed your bound, go to settings and test it before making it Online. Once online you can share the URL or print off the QR code for the game to give to your players and get them going.
