

BUSINESS MANAGEMENT (IT SERVICES) INDUSTRIAL PLACEMENT

We're looking for talented individuals to join our Service Management division for a 12 month placement prior to completing the final degree year. There are a variety of roles available across the division at various locations throughout the UK including Hatfield, Manchester, London, Milton Keynes and Nottingham.

SERVICE MANAGEMENT

The Service Management team work to ensure customers are receiving the IT service they pay for and are responsible for managing their in-life contracted services. We engage directly with our customers to ensure Computacenter delivers on our contractual commitments, whilst making sure our services are aligned to meet our customer's business needs.

WHAT WILL I GAIN FROM THE PROGRAMME?

- A specific role adding value to the business as well as individual project assignments.
- Structured development programme including personal development such as Presentation Skills.
- Opportunity to gain an industry recognised qualifications
- 'Hands-on' experience in a fast paced environment which will provide an opportunity to learn how IT services are delivered, learning from experts in their fields.
- Exposure to a global corporate environment with an opportunity to work with colleagues across the world [e.g. Spain, France, Germany, South Africa]
- Opportunity to work with 'Real Life customers' in their corporate offices

WHAT CRITERIA DO I NEED TO MEET TO APPLY?

We're seeking individuals who are on track for a 2:1 degree or above, in any subject, and are in the penultimate year of their degree. Please note:

- You don't need to have any previous work experience or specific IT knowledge to apply.
- We accept applications from all degree disciplines not just IT as this is a business placement not a technical IT placement.
- The role is not technical and does not involve any computer programming or development

In terms of characteristics we are looking for applicants who:

- Are driven and committed to provide outstanding levels of service.
- Enjoy team collaboration and can build good working relationships at all levels.
- Can adapt to situations and step out of their comfort zone to solve problems and make decisions.
- Contribute confidently ideas and suggestions on how we can be more innovative.
- Are organised with the ability to learn and analyse information quickly.
- Can demonstrate 'making a difference.'
- Bring theoretical learnings from their studies and put into practice with Computacenter's Service Management team.

We'd love to hear from you if you're interested in joining our programme, please submit your CV by **5 January 2018**.

If you are looking for a new opportunity, or know somebody who is, then **APPLY NOW!**
