

Motion – Bristol UCU Branch Priorities 2019

The branch notes and supports the following as branch priorities for 2019:

- Negotiating and campaigning for the branch's Gender Pay Claim.
- Negotiating the branch's Anti-Casualisation Claim; supporting the *Humans. Not Resources* campaign.
- Implementing our branch's Workload Principles and negotiating the implementation of a University of Bristol-wide Workload Platform.
- Negotiating with University of Bristol representatives as regards the Promotion and Progression Review.
- Negotiating the University of Bristol's policy concerning the USS Pension Scheme.

The branch also believes that we need to advance these priorities at the Faculty, School and Divisional level. We need the active support and engagement of our members in Faculties, Schools and Divisions to achieve this.
