

**SWBio DTP Research Experience Placements
Application Form
Summer 2020**

1. Student details

Name:	
Email address:	
Details of your undergraduate degree: <i>(e.g. BSc in Biological Sciences)</i>	

2. Which project would you like to be considered for?

3. Please explain why you wish to be considered for a Research Experience Placement and what you hope to gain from the experience (250 words maximum).

4. Please also send your CV and current transcript alongside your completed application form.

Completed application form (with CV and current transcript) to be returned to the project supervisor(s) whose e-mail address is listed, with the following title clearly marked in the e-mail subject line 'SWBio DTP REP application_[your surname]'.

Processing of your application

During the application process, the institution that you are applying to may need to disclose your application form and accompanying documents to the DTP Administrative Hub (based at the University of Bristol) for administrative purposes; for example student eligibility checks.

Disclaimer

Due to the current uncertain COVID-19 situation, at short notice BBSRC SWBio DTP REP projects for Summer 2020 may:

- be adapted - e.g. allow working from home, change in start/end dates
- be cancelled - due to the funding, REPs cannot be rearranged for beyond September 2020 for example, due to departmental/institution closures being enforced.

However, flexibility/contingency plans have been built into these projects where possible to try and minimise impacts.

By submitting your application, you understand and accept that the project you have applied to is subject to these potential changes at short notice.
