

'Dress how you want, think how you want, listen to what you want, love what you want.'

THE YUNG KING & QUEEN

The Rappers 10 rules for a good living

This is the Brother-Sister rappers Yung jag and LTT Queen, 10 rules for life to which they follow every day to ensure that they live their lives the right way.

LOOK FORWARD NOT BACK 1

Life's a constant adventure so don't look back at the previous ones, always look to the future ones. "Don't reminisce on the bliss, whilst you live in the abyss". Stay focused on the future even if it's looking bleak; looking back at the times of old will only make you sad.

TAKE ONE STEP AT A TIME 2

When doing anything in life take one step at a time. You'll never get anywhere trying to miss steps,

"Words can only hurt you if you try to read them"

it will only cause you problems in the future. Taking a step at a time ensures that in the future, problems do not grow out of previous problems. Taking one step a time will ensure your progression in tasks and life. This is the most important rule in the world of music, if you miss a single step or beat the song is ruined. That's why we take so long to release music, especially because were perfectionists when it come to music.

TRUST ONLY THOSE WHO TRUST YOU 3

Trust is as easily broken as it is easily said, there has been many a time where we have trusted someone and they have betrayed that trust. So over the years don't open up to someone unless they open up to you as well, there is no point spilling secrets to someone for them to be released to the world the next day.

MONEY DOESN'T DICATATE YOU 4

Your financial status is just a number, it doesn't define who you are as an individual. Life is yours, money is just an accessory, not a necessity. Think of it as an easily ignored formality, don't think of money as an impediment. We were making tracks when we had nothing but a flip phone and a mate who could beat-box, music has no need for money, you can find it anywhere; so find your music.
