Turnitin: Assessment Data and Feedback Engagement

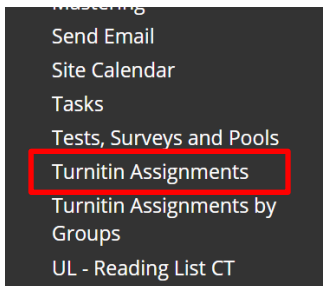

This helpsheet will guide you through accessing the Turnitin Assignment Inbox, how to use the tool to understand student engagement with written feedback, and the steps for exporting assessment report data.

Accessing the Turnitin Assignment Inbox

Each assessment in a module has an Assignment Inbox. The assignment inbox contains any submissions that have been made by students to the assignment.

In order to access the Turnitin Assignment inbox, complete the following steps:

1. Navigate to your Blackboard module in the My Sites 2020 Area.
2. Scroll down to Site Tools and Select Turnitin Assignments from the list.

Here you will find a list of all Turnitin Assessments that have been created for your module.

3. Click on the title for the assessment you are interested in.

Assessment Overview and Feedback Engagement

The Assignment Inbox will list all user submissions for that Turnitin assessment point, in the overview you can see and sort by a range of information points, these include:

- **Author** – A column containing the names of the enrolled students who have submitted.
- **Title** – The title given for any paper submitted.

- **Similarity** – A percentage indicating the overall similarity of the paper.
- **Grade** – Once a paper is graded, the point value given to the paper will replace the pencil icon in the grade column. A blue pencil icon indicates that a paper is ready to be, but not yet been, marked.
- **Response** – Provides instructors with insight on which students have viewed their graded papers.
- **File** – A page icon will appear in the file column if a submission has been uploaded to Turnitin. If there was no submission made, a dash will appear. Click on the page icon to download a copy of the submission as originally uploaded by the student.
- **Paper ID** – The unique numeric ID number assigned to every submission made to Turnitin.
- **Date** – The date of a submission. Any dates shown in red indicate a late submission made after the due date and time of an assignment.

Turnitin allows you to verify whether or not a student has actually engaged with their feedback provided by the tutor or marker, if you sort the Response column, the student will either be marked with a single dot, or a person icon and a tick.

A grey icon of a person with a check mark notifies the instructor that their student has viewed their paper in GradeMark for over 30 seconds. If the student does not view GradeMark for more than 30 seconds, the response column will contain a single dot.

By hovering over this icon, you can see a date and time stamp for when the user engaged with their paper post the feedback date.

The screenshot shows the Turnitin Assignment Inbox interface. At the top, there are navigation tabs: Assignment Inbox, Edit assignment, Class Stats, Libraries, and Preferences. Below this is a section titled 'About this page' with instructions on how to view papers and similarity reports. The main content area is titled 'Coursework Presentation - submission link' and shows 'INBOX | NOW VIEWING: NEW PAPERS'. There are 'Submit' and 'export' buttons. A table of submissions is displayed with the following columns: AUTHOR, TITLE, SIMILARITY, GRADE, RESPONSE, FILE, PAPER ID, and DATE. Two submissions are listed: 'NEXT Plc Strategy Analysis' with a grade of 62 and 'Strategy Making PPT' with a grade of 53. A tooltip is visible over the 'Strategy Making PPT' submission, indicating that the student has viewed the paper on 26-Mar-2019 at 8:24 PM.

AUTHOR	TITLE	SIMILARITY	GRADE	RESPONSE	FILE	PAPER ID	DATE
	NEXT Plc Strategy Analysis	--	62			101558168	03-Mar-2019
	Strategy Making PPT	--	53				

Exporting Class Statistics

To download a report for this assignment, click 'Class Stats' at the top of the Turnitin Assignment Inbox window. The data will download as a .CSV file and be presented for a Module overview, and an Assessment breakdown.

The report will detail:

- The number of submissions that have been marked with feedback.
- The number of submissions received for each assessment.
- The placement of student's plagiarism scores across four boundaries of 0% - 24%, 25% - 49%, 50% - 74% and 75% - 100%.
