

ACTS Framework

What is ACTS?

- An assessment tool that groups of teachers can learn to use
- An assessment tool for teachers who want to recognise and progress thinking in their pupils
- ACTS is a tool that consists of instruments – like multi-modal analysis and lesson study, for example – that help teachers assess thinking skills and move their pupils forward in their ability to think effectively
- ACTS is based on appropriate research methodological approaches
- ACTS is underpinned by accepted theories (based on work by Vygotsky, Kolb, Piaget etc).
