

Meet the Graduates

Your Invitation: 'Meet the Graduates' Network Event | Wednesday 8th Nov 2017

Hello, I'm Professor Steven Peacock. As the new Head of the University of Lincoln School of Film and Media (formerly LSM and media production department) I am delighted to invite you to our main alumni network event 'Meet the Graduates' (MtG). We hope you will join LSFM on the afternoon of Wednesday 8th November 2017 at Brayford Pool campus for this great gathering between our graduates and students. I like to meet our graduates, so hope to see you at MtG or in the future. The School and Uni's alumni are organising the event, so here are details from my colleagues:

MtG 2017 will be in the Stephen Langton Building (formerly EMMTEC), next to MHT. Our network event starts at 12.30pm with a buffet lunch for alumni and some staff. At 2.00pm LSFM students will have the opportunity for an audience with alumni at the popular, frank, Graduate Question Time. From 3.30pm there will be the networking session; one-to-one between students and fellow graduates over a drinks reception upstairs at The Swan. You will also have the chance to see developments at the School (some areas are still under construction!), so let us know if you'd like a tour.

On the morning of the alumni network event will be our mentoring initiative between industry professionals and LSFM undergraduates. If you are interested in mentoring a student, please see information posted on our [blog](#) where you can register your contact details. Then each new academic year we check if mentors are available. If you'd like to share your story or update a post on the LSFM Blog we'd love to hear from you. Please email rawright@lincoln.ac.uk. Thanks if you have posted recently!

If you wish to attend Meet the Graduates or you have confirmed and need more details, please get in touch by 30th October. RSVP or contact alumni@lincoln.ac.uk. We are excited at LSFM about MtG 2017 and look forward to hearing from you.

All the very best,

Radica Wright, Senior Lecturer (part-time)
