Third reviewer completes review

Managing Editor anonymises reviews, collates with Editor's comments and shares with author

Managing Editor collates and anonymises reviews with Editor's comments and shares with author

Author completes revisions

Editor reviews and makes decision
 [Note: It may not be useful for an author to receive two opposing reviews, where this is the case and a third reviewer is used, we will be selective in sharing only useful comments with the author regarding revisions required]

Author completes revisions

Managing Editor anonymises and shares revised paper with reviewers using same reviewers as first round where possible. If not, reviewers are asked to comment based on the revisions only

Managing Editor anonymises reviews, collates with Editor's comments and shares with author

Author completes any further revisions required

Editor reviews and requests further amendments if required before accepting
