

IMechE/ICE/IET/ICHEM

Glasgow Area
Co-Sponsored by Glasgow Caledonian
University and Scottish Power

**JOINT INSTITUTION
PRESTIGE LECTURE
0-1000-0 = 90:
BLOODHOUND THE
1000 MPH CHALLENGE**

John Piper, Engineering Manager for the project and Chief Engineer on the JCB land speed record car, will talk about Britain's latest attempt at the world land speed record. The lecture will concentrate on the Bloodhound car, but will also talk about how the challenger cars tend to be very different and therefore there is no need to be secretive about the technology. The talk will include a general overview of the aims of the project, then the story of the design so far with some great visuals on the stress analysis work carried out by Arup. This would be followed by where the project is now.

22 April 2010: 5:30 for 6:30

Saltire Centre/Carnegie Lecture Theatre
Glasgow Caledonian University
Cowcaddens Road, Glasgow, G4 0BA
