

SEVERE WEATHER PLANS

IN PRIMARY 6

Literacy and English

- Write a newspaper report about the winter weather. Remember to include all the key features of a report including a headline, picture, caption and an orientation sentence (what, when, why, how and where). Proof read and redraft your work.
- Read a book/magazine/short story and then retell what happened by making your own comic strip, either on paper or on the Comic Life app. You may choose to change the perspective of the story, for example, retell some of a Harry Potter book from Snape's viewpoint.

Numeracy and Mathematics

- Create a poster based on learning in class to help teach others about a concept. For example: angles – types of angles, how to measure them.

RE

- Research Saint David and create a short fact file, presentation and poster to demonstrate your learning.

Expressive Arts

- Create a winter wonderland picture using cold colours (blue, green etc). See what materials you can find around the house to make it look unique.

Science

- Create a factfile about a winter animal. Remember to include its habitat, what it eats, what it looks like and any other interesting facts.

Health and Wellbeing

- We have learned different exercises we can do in our fitness lessons, run your own circuit with each exercise lasting 1 minute followed by 30 seconds rest. Try to do as many different exercises as you can.
- Consider 'Our Learning Powers'. Think about how you use them to support you at home. Create a poster/presentation to demonstrate how you do this. You may want to add photos.

Don't forget to Tweet your learning throughout the day!
