Germ Pepper Experiment

Resources:
Pepper
Water
Liquid Soap

1. Put some water in a bowl and sprinkle some pepper on top. Not too much or it won’t work as well.
2. Thinking about the pepper as germs, you are going to dip your finger into the water.

What do you think will happen?

3. Next, you’re going to put soap on your finger and dip it into the germs again.

What do you think will happen?
