Make a butterfly bar

How can you charm a butterfly? Butterflies suck up sweet nectar from flowers or ripe fruit. Here’s a drink that might tempt them down for you to see.

1. Slice the banana into the bowl and mash it up with the fork.

2. Make three holes around the paper plate (not too close to the edge) and thread a piece of string through each hole. Tie each string off.

3. On a sunny day, tie the string at the top to a branch and spoon on the banana mush. Watch for butterflies.

You will need
- Mixing bowl
- Fork
- Spoon
- Over-ripe banana
- Scissors
- String
- Paper plate
