**Solve a Sudoku**

Your challenge is to solve a Sudoku maths puzzle. You will need to adopt a growth mindset to do this!

A Sudoku is a puzzle grid with 9 columns, 9 rows and 9 boxes within this.

Either complete the Sudoku on the next page or visit: https://www.kidsmathgamesonline.com/sudoku.html

I would suggest selecting the Timon and Pumbaa Sudoku, try the medium level first, if you get this then try hard.

**Sudoku Rules**

- You have to have the numbers 1-9 in each column
- You have to have the numbers 1-9 in each row
- You have to have the numbers 1-9 in each box
- You are not allowed to repeat a number in any row, column or box
