

## Environmental Biology- Homework 3

Your task is to create a leaflet encouraging households in East Lothian to recycle more! You can use this website to find out more information <http://www.recyclenow.com/>

Your leaflet should have the following two things in it.

- 1) A **catchy title** that you have made up (e.g. Reduce, Reuse, Recycle). (1 mark)
- 2) A **colourful picture** related to recycling. (1 mark)

You will get marks for including answers to the following questions in your leaflet.

- 1) Give three reasons why it is important to recycle resources. (3 marks)
- 2) Name three groups of things that can be recycled (e.g. paper). (1 mark)
- 3) How can these items be recycled (e.g. does the council collect them)? (1 mark)
- 4) What day does the council collect recycling in your area? (1 mark)
- 5) What happens to garden waste that you put in a brown bin? (1 mark)
- 6) Why is it very important not to put batteries in with your rubbish? (1 mark)

Total: 10 marks
