

Dalkeith High School

Gases and their reactions

Homework 4

Chip pan fires are quite common
The public needs to be warned about the dangers.

- Write a safety leaflet to go to all householders. You can use the back of this sheet or any sheet of blank paper.

In the leaflet:

- Explain how chip pan fires occur
- Give safety tips on how they could be avoided.
- Explain how you should deal with such a fire if it occurs.

Use the fire triangle in your leaflet.
Draw pictures to help make your explanations clearer.

You may need to use the library and / or access the internet to find out some information. Do not copy directly from these resources. Use your own words.

Mark scheme

You will receive marks for the following:

- | | | |
|------------------------------------|---|--------------------|
| - accuracy of information | 6 | |
| - clear, easily understood writing | 2 | |
| - attractive presentation. | 2 | Maximum = 10 marks |
