

Literacy

Listening & Talking

This is your chance to be a QUIZ MASTER. Your task is to create a family quiz for the people in your house.

First try to come up with different categories (sport, movies, animals, general knowledge, etc) and write up each question in your jotter. You'll also need to include the answers. If you're stuck for ideas you could use the internet to help you.

Next you'll need to hold your quiz. Make sure you keep a leader board and add up the scores of each player as you go before revealing the winner at the end. Have fun!

Novel Study and AR

- You now have until the end of term to finish Georges Marvellous Medicine and complete the book review below.
- Keep going with your personal reading and completing AR quizzes where you can and keep sharing your successes on Google Classroom :)

Writing

Over the last few weeks we have focused on describing **characters** and **settings**. This week I'd like you to use the descriptive writing skills you have learnt to write an imaginative story that includes all the things we've been working on.

LI: to write an imaginative short story to entertain the reader.

SC: use powerful descriptive vocabulary to bring **setting** and **characters** to life

use appropriate senses vocabulary (see, hear, taste, touch, smell)

use a structure that includes sentences and paragraphs and has a beginning, middle and end to your story.

use your editing skills to re-read and check your story makes sense and fix mistakes.

Use the template on Google Classroom for your writing or complete the task in your jotter.

Numeracy

Inverse Operations

What are inverse operations?

Inverse operations are opposite operations.

Addition is the inverse operation of **subtraction** and **multiplication** is the inverse of **division**.

$$15 - 6 = 9 \text{ and } 6 + 9 = 15$$

$$12 \div 3 = 4 \text{ and } 4 \times 3 = 12$$

Green:

$2 \times 6 = 12$	$7 \times 4 = 28$
$6 \times \underline{\quad} = 12$	$4 \times \underline{\quad} = 28$
$3 \times 4 = 12$	$7 \times 8 = 56$
$4 \times \underline{\quad} = 12$	$8 \times 7 = \underline{\quad}$
$12 \div \underline{\quad} = 2$	$\underline{\quad} \div 4 = 7$
$12 \div 4 = \underline{\quad}$	$56 \div 8 = \underline{\quad}$

Red:

$12 \div 2 = \underline{\quad}$	$28 \div \underline{\quad} = 4$
$12 \div 3 = \underline{\quad}$	$\underline{\quad} \div 7 = 8$
$4 \times 5 = 20$	$8 \times 7 = 56$
$6 \times 9 = 54$	$5 \times 2 = 10$
$\underline{\quad} \times 4 = 20$	$7 \times 8 = \underline{\quad}$
$9 \times 6 = \underline{\quad}$	$\underline{\quad} \times 5 = 10$

Yellow:

$\underline{\quad} \div 5 = 4$	$56 \div 7 = \underline{\quad}$
$54 \div 9 = \underline{\quad}$	$\underline{\quad} \div 2 = 5$
$20 \div \underline{\quad} = 5$	$\underline{\quad} \div 8 = 7$
$54 \div 6 = \underline{\quad}$	$10 \div 5 = \underline{\quad}$
$9 \times 5 = 45$	$8 \times 5 = 40$
$8 \times 8 = 64$	$7 \times 2 = 14$

Maths

Maths Hunt

For this task I want you to be maths explorers and try to make links between things in the outdoor environment and Maths. The next time you're outside, look around you.

What can you see that has a mathematical connection?

Write or draw any mathematical words or shapes in and around the space you are in. Write your ideas down in words or draw a mathematical calculation.

Challenge: can you draw a picture or take a photo of your environment and fill it with maths connections? They maths could be sums, or maths vocabulary to describe what you can see.

Blue:

$5 \times 9 = \underline{\quad}$ $\underline{\quad} \times 8 = 40$

$8 \times 8 = \underline{\quad}$ $2 \times \underline{\quad} = 14$

$45 \div 5 = \underline{\quad}$ $40 \div 5 = \underline{\quad}$

$64 \div 8 = \underline{\quad}$ $\underline{\quad} \div 2 = 7$

$45 \div 9 = \underline{\quad}$ $\underline{\quad} \div 8 = 5$

$64 \div 8 = \underline{\quad}$ $\underline{\quad} \div 7 = 2$

Challenge: Can you do each groups problems?

Multiplication Problems

Use the strategies you have learnt in class to help you work out the following problems.

Green:

1. Martha's mum hands her a few coins. When she looks, she has **six 2 pence** coins. How much money does Martha have?
2. Heather makes a 6 kilometre round trip to the gym each day. How far does she travel in a week (7 days)?
3. Colin gets 5 texts each hour from his friend. How many texts does he receive from 1pm to 7pm?
4. The steak costs £4 in the butchers. Mrs Bond bought 6 steaks, how much did they cost her?

Red:

1. There are 48 bottles in a create. How many bottles will there be in 6 creates?
2. Jack has 35 marbles in a bag. He has 8 similar bags. How many marbles does he have altogether?
3. Jess buys 3 packs of apples. There are 15 apples altogether. How many apples will there be in 12 packs?
4. A pack of 4 tins of beans costs £1.75. How much would you pay for 20 tins of beans?

Position and Direction

First, make a map of your garden from bird's eye view (top down). Remember to put in all the objects in your garden (shed, flower bed, bins, etc). Make your map as detailed as you can .

Next, plan a route around your garden using directional language (forward, turn 180°, north, etc), think of it as a pirate map and a route to the treasure :)

You could also do this in a park or in your house if you had to.

Challenge: can you get someone in your family to follow your directions as you read them out, did they work?

Cuiken Primary Home Learning Grid 18.5.20

Yellow:

1. There are 6 classes in a school. Each class has 28 children. How many children are in the school?
2. A farmer keeps 186 chickens. Each chicken lays 4 eggs a week. How many eggs are laid in a week?
3. A sack of tulip bulbs holds 256 bulbs. Dave plants 6 sacks of bulbs. How many bulbs has Dave planted?
4. A shop sells 3 televisions that cost £375 each and 7 televisions that cost £435 each. What is the total cost of the televisions?

Blue:

1. A school puts on a show in the school hall. It sells 278 tickets for each performance. There are 5 performances. How many tickets are sold?
2. A teacher buys 8 jars of counters. Each jar holds 475 counters. How many counters are there altogether?
3. A school has 8 classes and each class can hold 30 children. There are 216 children in the school. How many spare places are there?
4. A factory uses 7 metres of wood to make a wardrobe. How much wood is needed to make 5 wardrobes?

Challenge: Can you be a tiny teacher and teach a grown up at home strategies to help you work out adding and subtracting sums. Teach them the strategies, create a worksheet or a game and mark their work. How did they get on? Also get them to give you feedback, how did they think the lesson went?

Cuiken Primary Home Learning Grid 18.5.20

ICT or Technologies / RME

Coding

We learnt about coding when Mourad came to work with us. We used coding skills to operate the Sphero robots. You can also code from home using Scratch. Go to <https://scratch.mit.edu/>

If you click the *start creating* tab, you'll find tutorials and exercises to get you going. If you already use Scratch at home, what cool piece of programming could you share in our Google class?

RME - Mrs McKie

There are a lot of protests in America and beyond at the moment at the way black people are and have been treated. The words prejudice and discrimination are used a lot to describe what has been happening. The video you are going to watch is a speech given by Rev Dr. Martin Luther King Junior, who was an American civil rights leader and a preacher, in the 1960s.

Once you have listened and watched the video write a short paragraph as to what you think the speech is about?

Write a speech of your own using Martin Luther Kings speech as a guide about making sure everyone is treated equally.

<https://youtu.be/vP4iY1T+S3s>

Prejudice is the judgement of someone or something without knowing enough information about that person or thing. It is an attitude or belief.

Discrimination is treating someone differently because of their race or gender. It is an action or behaviour.

During a PE lesson, a boy who looks overweight is not picked for the school football team. He is actually very good at sport.

Do you think this is Prejudice or Discrimination?
Explain your answer.

French

France - Miss Duncan

This week we are going to be learning about the parts of the body. There are worksheets below on your grid where you need to match the French word to the correct part of the body. Some you might be able to guess, but some you will need to find a way to translate. If you have a bilingual dictionary at home, you can use that, but if you do not, you can use this website. <https://www.wordreference.com> When you type in the word, you do not need to write le/la/l' e.g. if you want to translate 'la jambe', you would only type 'jambe' into the word reference search bar or, if you are using a dictionary, you would only look for 'jambe' in the French part of your dictionary. On the website, there is also an option to hear how the word sounds.

Ann Robertson's French Lesson

La Fete de la musique! - Thursday 18th June, 11.30

On Thursday 18th June we will focus on music with a French singalong. This is timed with the annual French festival, La Fete de la Musique! I'll provide resources etc. ahead of then.

<https://youtu.be/ZQCPI9mWDm8>

You can also find her on Twitter - @aroblingo

Expressive Arts

Model Making

The Titanic was an iconic maritime vessel which still captures people's imaginations today. Your design task this week is to make a model of the ship. You could use bits of recycling which you could carefully cut and fit together and perhaps paint. Try to pick out the ships distinctive features, such as the four yellow and black funnels, to make your model as accurate as you can. If you can't make the model you could also do an accurate coloured picture instead.

You might want to Google some pictures for reference and it's maybe a good idea to do the Titanic task below first so that you understand the ship a bit better.

Art

**Banksy is a graffiti and street artist.*

Banksy's newest artwork supports Black Lives Matter.

Graffiti artist Banksy has shown his support for the Black Lives Matter movement with his latest artwork.

The anonymous artist, who is known for creations that highlight important issues and events going on in the world, shared the piece of art on his Instagram page.

Banksy's most recent painting shows an American flag being burned by a candle. It also includes a picture of a person who is thought to represent George Floyd, a black man who died in police custody.

Cuiken Primary Home Learning Grid 18.5.20

		<p>The artist also shared some thoughts on the racial inequality people all across the world have been challenging at this time. He said:"At first I thought I should just shut up and listen to black people about the issue. But why would I do that? It's not their problem. It's mine."</p> <p>He went on to say that people of colour had been "failed by the system". "This faulty system is making their lives a misery, but it's not their job to fix it," he added.</p> <p>Banksy isn't the only person in the public eye to speak out on racism. Lots of black celebrities have <u>shared stories of their own experiences</u>, and <u>called for much-needed change</u>.</p> <p><u>Black Lives Matter protests have also been held in a number of cities in the UK</u>, with thousands of people attending.</p> <p>Visit the following newsround website for to learn more about Banksy and to view his newest artwork in more detail: https://www.bbc.co.uk/newsround/52955451</p> <p>Task: Design your own artwork, displaying how important the Black Lives Matters movement is. Use Banksy's as inspiration, but please do not just copy it.</p>

Cuiken Primary Home Learning Grid 18.5.20

Family Learning	HWB / Exercise	IDL
<p>Help Around the House Learn how to wash and dry the dishes or load the dishwasher and turn it on this week. Once they are dry put them away. You will be using maths skills such as sorting. It's a useful life skill and will go down well with mum or dad! Be careful not to break anything!</p> <p>Days of the year calendar challenge Monday 15th - Nature Photography Day Take a picture with a natural theme - flower, animal?</p> <p>Tuesday 16th - World Tapas Day Can you make or design your own tapas? Tapas are small dishes of food which come from Spain.</p> <p>Wednesday 17th - Eat your vegetables day It's time to eat those veggies - how many different ones can you eat today?</p> <p>Thursday 18th - International picnic day Can you enjoy a picnic today? Maybe just in your bedroom if it's raining :)</p> <p>Friday 19th - Garfield the Cat day No, seriously, there's a day devoted to Garfield...</p> 	<p>HWB - Mrs McKie We are not born artists, musicians, athletes or scientists. We learn to do these things through hard work and effort. But remember - the way we think feel or learn things shapes our brain.</p> <p>The amazing brain quiz answer from last week - you are born with one hundred billion brain cells - which is quite amazing. Did you get it right? How did you get on with your own amazing brain in the crossing your arms challenge? (I'll test you when we get back to school!)</p> <p>Mistakes are proof that you are trying, but it is hard if you always doubt your ability to do things. That's why it's a good thing to have a Growth Mindset that means you always think you can achieve something with a little effort and hard work - so you can't do it -YET. Fixed Mindset - you just can't do it because you're not going to give it a go or work hard or show some effort. Can you design your own Growth and Fixed Mindset characters (they can be anything as long as one is Growth and the other Fixed mindset). What do you think the Fixed Mindset character might say if faced with different challenges that are new to them, write it beside your character, then do the same for the Growth Mindset character. Challenges could be doing a maths problem they've never done before, or, drawing a picture of a character from a book they've read or, having to keep the ball off the ground for more than 5 kicks. Think of some of your own for your characters. Take a look at these YouTube sites for some ideas on Growth Mindset and your amazing brain. https://youtu.be/ch3kbXBah5Y https://youtu.be/fwLiUCWCUrU</p>	<p>IDL</p> <p>Racism The news has been populated recently by statues that have been linked to Black Slavery, and what we should do with them. Many people think that they should be removed, but some think they should remain with plaques highlighting their links to slavery. I would like you to watch some of the following clips. Sir Geoff Palmer OBE is a local man, who is a professor at Herriot Watt University. https://www.bing.com/videos/search?q=sky+news+sir+geoff+palmer+dundas+statue&FORM=HDRSC4</p> <p>Read the following news report: https://www.bbc.co.uk/news/uk-scotland-edinburgh-east-fife-52965230</p> <p>Newsround report: https://www.bbc.co.uk/newsround/52965665</p> <p>Using what you now know, I would like you to write a newspaper report on this very topical topic. Follow the following link for some extra help if you would like a little reminder of how to write a newspaper report. https://www.bbc.co.uk/bitesize/topics/zkgcwmn/articles/zbsbwtj</p> <p>Challenge: I would like you to consider what you think should happen to the statues, do you think they should be removed or stay in place?</p> <p>TITANIC A bit of learning about the Titanic was a topic that several people in class said they would like to see this week. First, I'd like you to find out a bit more about the Titanic by reading the articles and watching the clips here: https://www.bbc.co.uk/bitesize/topics/z8mpfq8/articles/zng8jty In your jotter I'd like you to create a mind map of facts about the 'unsinkable ship'. Next, use your notes to make a PowerPoint about the history of the Titanic. If you don't have access to a computer you could make some presentation cards instead.</p>

Cuiken Primary Home Learning Grid 18.5.20

Cuiken Olympics

Hi everyone, thank you so much again for everyone's efforts during last week's obstacle course week, I am so impressed with everyone who took part and to our winners! This week is week 3 of Cuiken's Olympics and it is called 'Fitness 5'. You are going to have 5 exercises to complete, 5 times, for 5 days.

Your activities are :

- 5 sit ups
- 5 squat jumps
- 5 press ups, either full or on your knees
- 5 lunges
- 5 burpees

I will post a video on twitter going through all of these exercises so don't worry if you aren't sure. I'd love to see all your pictures and videos on twitter and I will be looking for the best technique to win this weeks 50 recognition squares! If you're tweeting this week id love if you could use #Fitness5 and #Cuikensolympics ! Good luck, Lauren ☺
