

P6/7 Cuiken Primary Home Learning Grid

Literacy	Numeracy	Maths
<p>1. <u>Listening and Talking task</u> - watch Newsround this week. Take one of the topics they talk about and have a discussion with a family member about what you have learned. (it might be mum or dad, or a relative on the phone ☺)</p> <p>2. <u>Reading task</u> - Read from Chapter 28. <u>Finish it if you can and do the AR test to check your understanding.</u></p> <p>The questions this week are on chapters 29-39. Answer 4 of the following:</p> <p>What happens to make Zero run away? Why does Stanley go after Zero? How has Zero changed since the beginning of the story? What has changed in Stanley since he first came to the camp? What do the boys find which helps them?</p> <p>Challenge - can you answer all the questions above?</p> <p><u>Spelling</u> Each spelling group should use the words below and do SACAWAC then write a sentence for each word using the correct punctuation. Remember to use cursive handwriting. All spelling words are underlined.</p> <p><u>Giraffes</u> - Words ending in</p>	<p>1. Pick from the following challenges:</p> <p><u>Hot</u> Toby has £52.85 and his sister has £123.65. How much have they altogether? The total perimeter of a regular octagon is 296cm. What is the length of one side? Can you find two numbers that add up to 250? Pick from - 123, 222, 109, 78, 115, 239, 86, 72, 148, 201, 136, 129, 97, 114 23 people attend a concert. The tickets cost £4.70. How much money was made? A shop makes £32,350 this year. That is £2,456 better than last year. What did the shop make last year?</p> <p><u>Sizzling</u> Toby has £239.85 and his sister has £145.65. How much have they altogether? The total perimeter of a regular octagon is 5.88 metres. What is the length of one side? Can you find two numbers that add up to 2500? Pick from - 345, 2536, 565, 2905, 357, 2257, 1356, 1545, 1723, 1972, 1144, 576, 765, 1165. 350 people attend a concert. The tickets cost £4.70. How much money was made? A shop makes £32,350 this year. That is £21,456 better than last year. What did the shop make last year?</p> <p><u>Tasty</u> Toby has £5.00 and his sister has £3. How much have they altogether? The total perimeter of a regular octagon is 24cm. What is the length of one side? Can you find two numbers that add up to 25? Pick from -</p>	<p>1. We are going to look at coordinates. Have a look here to remind yourself. https://www.youtube.com/watch?v=6eX4PZJjofI As a class we have not looked at negative number so you only need to look at the first 3-4 mins of the video, however if you feel you understand negative numbers, play the whole thing. Then visit this website where you can play a game of Coordinate Alien Attack. https://mathsframe.co.uk/en/resources/resource/469/Coordinates-Alien-Attack You can choose whether to play in one quadrant or four - remember challenge is good!</p> <p>2. Now you are familiar with coordinates have a game of battleships with a family member. If you need a grid and instructions get one here - https://free-printable-paper.com/printable-battleship-game/ Have fun. This game could be done at a social distance too or over facetime etc.</p>

P6/7 Cuiken Primary Home Learning Grid

<p><u>shus</u> spelt -tious <u>infectious, nutritious, cautious,</u> <u>ambitious, fictitious, superstitious,</u> We can also add an extra suffix to make a new adverb - <u>infectiously,</u> <u>nutritiously, cautiously, ambitiously,</u> <u>superstitiously</u> Tigers - The c sound spelt que and the g sound spelt -gue <u>unique, antique, grotesque, cheque,</u> <u>picturesque, fatigue, league,</u> <u>dialogue, catalogue, tongue</u> Lions- words with er in them <u>mother, brother, letter, sister,</u> <u>summer, father, baker, worker,</u> <u>winter, flower</u></p>	<p>7, 17, 31, 4, 15, 16, 6, 14, 9, 11 7 people attend a concert. The tickets cost £4. How much money was made? A shop makes £34 this year. That is £8 better than last year. What did the shop make last year? 2. Pick from the challenges below. Put them in order from the largest number to the smallest. Spicy 11.65, 9.96, 6.96, 6.99, 10.65, 09.65, 1.09, 11.56 Tasty 233,545 223,445, 223,554 223,454 233,554, 233,454 Hot 87, 78, 75, 93, 24, 46, 54, 55, 97, 27, 72, 43, 34 Challenge - Can you do them all?</p>	
<p style="text-align: center;">ICT/ RME</p> <p>1. The answers to the following questions are your own thoughts; there are no right or wrong answers. You could talk these through with an adult if you wanted to. You may have seen the protests in America and beyond for George Floyd, you may also have noticed the banners with 'Black Lives Matter' that people are holding up, displaying or writing on roads. What do you think Black Lives Matter means? Even though there is unfairness in the world, there have always been people</p>	<p style="text-align: center;">French</p> <p>1. This week, we are learning how to recognise and sort masculine, feminine and plural words. Have a look at the Google slides PowerPoint first and then have a go at the sorting worksheet. As I mention in the slideshow, there are exceptions to the rules, but I have not included any on the worksheet! Bonne chance! https://docs.google.com/presentation/d/1skEaCQoJjqKaLLVzFJKAEMWuIuOxs_JOUKIKC9EUiOE/edit?usp=sharing</p>	<p style="text-align: center;">Expressive Arts</p> <p>1. The typical orchestra consists of four groups of related musical instruments called the woodwinds, brass, percussion, and strings. Try this challenge from the RNSO and based around the percussion section - instruments that are hit or shaken. https://www.youtube.com/watch?v=ZtkaoFMaRmY 2. Steven Brown is a famous Scottish artist who uses bright colours. He loves painting Highland cows. Here is an example of his</p>

working to change it and you can be a part of that. **In what way do you think you could make a change in the world?**

Prejudice is the judgement of someone or something without knowing enough information about that person or thing. It is an attitude or belief.

Discrimination is treating someone differently because of their race, gender or sexuality. It is an action or behaviour.

Which do you think was displayed in the case of *George Floyd*? Please explain your reasoning behind your answer.

Example of prejudice:

An elderly woman thinks that all young people are lazy and don't want to do anything but stay on their screens and don't want to get a good education.

She lives in a Retirement home.

What would you say to this elderly lady to convince her this is not true?

Example of discrimination:

During a PE lesson, a boy who is overweight is picked last for the school football team. This boy is actually very good at sports.

Nom:

Le/La/L'/Les ?

After watching the video, sort the words into the correct box. If there are any words you do not know, go to Wordreference.com to find their translation.

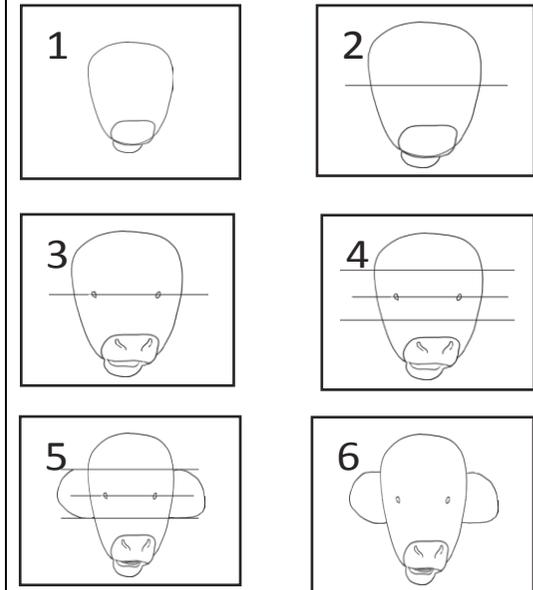

orange	poisson

Date:

2. La Fete de la musique! - Thursday 18th June, 11.30
 On Thursday 18th June we will focus on music with a French singalong. This is timed with the annual French festival, La Fete de la Musique! I'll provide resources etc. ahead of then.
<https://youtu.be/ZQCPI9mWdm8>

work. Have a go at one of your own by following the instructions below.

1. Draw a simple oval shape for the head.
2. Add a horizontal line across the middle of the head.
3. Add two small dots for eyes and a simple shape for a mouth.
4. Add two horizontal lines above the eyes to represent ears.
5. Add two small circles for nostrils and a simple shape for a tongue.
6. Final drawing of a cow's face.

<p>What would you say to convince people that they should not judge others by their appearance? 2. Donald Trump called the protesters 'terrorists' Do you agree/not agree with him? Please explain your answer. Do you think politicians have the right to say anything they like? If not why not?</p>		<div style="display: flex; justify-content: space-around;"> <div style="border: 1px solid black; padding: 5px; text-align: center;"> <p>7</p>  </div> <div style="border: 1px solid black; padding: 5px; text-align: center;"> <p>8</p>  </div> </div> <div style="border: 1px solid black; padding: 5px; text-align: center; margin-top: 10px;"> <p>9</p>  </div> <p>If you have crayons or felt pens you can colour it as Steven Brown does - broad strokes and multicolours.</p>
<p style="text-align: center;">Family Learning</p> <p>1. Your challenge is to boil an egg. I like my yoke soft so I can stick toast soldiers in so I do mine for 7 mins. If you like a hard egg - boil it for 10 mins. 2. Make a video of yourself boiling the egg - you might want to do it in the style of Joe Wicks, the body coach who makes it quick and fun. You can easily do it on a phone these days and add different things such as credits etc. by using an app like imovie. 😊</p>	<p style="text-align: center;">Health and Wellbeing/ Exercise</p> <p>1. Make sure you do something you enjoy every day. It might be play your favourite game on the x box, do keepie uppies with a ball, colour something in or sing in the shower (like me!) 2. Hi everyone, thank you so much again for everyone's efforts during last weeks obstacle course week. I am so impressed with everyone who took part and to our winners! This week is week 3 of Cuiken's Olympics and it is called 'Fitness 5'. You are going to have 5 exercises to complete, 5 times, for 5 days.</p> <p>Your activities are :</p> <ul style="list-style-type: none"> - 5 sit ups - 5 squat jumps - 5 press ups, either full or on your knees - 5 lunges - 5 burpees 	<p style="text-align: center;">IDL</p> <p>1. This week we are going to look at the body and in particular - the senses. You will have covered this before but remind yourself here by watching this https://www.bbc.co.uk/bitesize/clips/zmys34j The clip beautifully leads on from our animals topic. Once you have watched it answer the following questions. Why do animals have their eyes on the side of their head? How and why do animals hear so well?</p> <p>2. Our skin acts as the <u>protective barrier</u> between our internal body systems and the outside world. It's not only the body's largest <u>sensory organ</u>, but it's also</p>

P6/7 Cuiken Primary Home Learning Grid

I will post a video on twitter going through all of these exercises so don't worry if you aren't sure. I'd love to see all your pictures and videos on twitter and I will be looking for the best technique to win this weeks 50 recognition squares! If you're tweeting this week I'd love if you could use #Fitness5 and #Cuikensolympics ! Good luck, Lauren ☺

the largest organ.

The skins "sense of touch" is what gives our brains a wealth of information about the natural environment, including temperature, humidity, and air pressure. Most importantly, this sense of touch lets us feel physical pain-a necessity for avoiding injury, disease, and danger.

2. Try this experiment to find out how wonderful our skin is. - Is the Glass of Water Hot or Cold? - Ask an adults permission first...

With this experiment, test your skin's ability to perceive whether an object is hot or cold.

What You Need:

- Three tall glasses of water, one filled with very warm water (not burning - ask an adult for help), one filled with room-temperature water, and one filled with ice water
- A clock to time yourself

What You Do:

1. Grab the glass of hot water with one hand, making sure that your palm is touching the glass. Grab the glass of ice water with your other hand,

P6/7 Cuiken Primary Home Learning Grid

		<p>holding the glass in a similar fashion.</p> <ol style="list-style-type: none">2. Hold the glasses for at least 60 seconds.3. After holding the hot and cold glasses for 60 seconds, grab the room-temperature glass with both hands, palms touching the glass.4. Does the glass of room-temperature water feel hot or cold? <p>What Happened:</p> <p>Your brain just received confusing messages from your hands about what the temperature of the third glass was. The hand originally holding the hot glass told you the third glass was cold, whereas the hand originally holding the cold glass told you the third glass was hot. But they were both touching the same glass. How can this be?</p> <p>You received these confusing messages because our skin does not perceive the exact temperature of an object. Instead, your skin can sense the difference in temperature of a new object in comparison to the temperature of an object the skin was already used to ("relative temperature"). This is why entering a body of water, such as a pool or lake, seems really cold at first (your body was used to</p>
--	--	---

P6/7 Cuiken Primary Home Learning Grid

		<p>the warmer air) but then gradually "warms up" after being in the water for a while (your body adjusts to the temperature of the water).</p>
