P7 Home Learning Grid - Term 2 2020

<p style="text-align: center;">Literacy Reading</p> <p>We are reading the novel Kensuke's Kingdom by Michael Morpurgo. Unusually, Michael Morpurgo has not described the character of Michael, particularly his looks. Draw a picture of what you think he looks like as a child. Beside your drawing write down all the things you know about the boy including his personality. For example - he loves his dog Stella Artois.</p>	<p style="text-align: center;">Literacy Writing</p> <p>We have recently written some imaginative stories and we know we need to use language which entertains the reader. Use the setting of a castle and the giant as a character and list six adjectives, six adverbs and six great verbs that you could use in a story. Add one simile, metaphor and one use of personification as well. Please use Google Classroom to complete this task as the High School will expect you to be able to use this. There is a form waiting there for you all.</p>	<p style="text-align: center;">Numeracy / Maths</p> <p>Go onto Sumdog. A new competition will run up until Christmas. This will be done in your maths groups and will involve what we have done in class so far this year. It will include fractions, decimals, measure and money. This will be good revision and good practise and there may even be a prize from the lucky bag for the winners. Good luck!</p>
<p style="text-align: center;">HWB</p> <p>It is important in these more difficult times to relax and to be kind to others. Spend five minutes concentrating on something that relaxes you. It might be listening to music, colouring in or doing some deep breathing exercises. Once you have done this see if there is something you can do for a family member to help them relax. This might be doing the dishes one night, running someone a bath or helping out by hanging the washing on the clothes horse. Write what you have done in your jotter.</p>	<p style="text-align: center;">Learning Across the Curriculum</p> <p>We are currently reading Kensuke's Kingdom by Michael Morpurgo and have looked at co-ordinates. We know that the earth is split up using longitude and latitude, the units that represent the coordinates of the geographic coordinate system. Use the website https://www.latlong.net/ to find the longitude and latitude of Southampton, England and Tokyo, Japan. This will use your ICT skills as well as help you learn about the geographic co-ordinate system.</p>	<p style="text-align: center;">Learning Across the Curriculum</p> <p>In class we have been looking at forces. Your challenge is to take a kite outside. If you don't have one you can make a simple one by using the instructions here - https://www.instructables.com/Easy-Paper-Kite-for-Kids/ Go outside and fly your kite. Write down in your jotter what forces are in play when flying a kite. Can you make any amendments to your kite to make it fly any better? Write down in your jotter what your adjustments were and how they helped your kite flying and put a photograph of yourself doing this on Cuiken Twitter so we can all see you having fun.</p>
